<ul style="list-style-type: none"> • The professor was very knowledgeable and good. made me reconsider my major to economics • - Learned a lot about micro during this semester • Microeconomics is a hard course however, Professor Rudy took his time and explain. • I went in expecting something different and got more im a good way ofcourse. • I feel that we learned a lot based on how real world functions with surplus and the supply and demand aspects which the professor did explain and made sure to give his full knowledge and understanding for us to look back and made the class interactive with group conversations. -J • great professor • Great professor. • Overall I got a better grasp at how Microeconomics works in the difference between other economic topics
