Comments
Professor Rudy was extremely nice and approachable making it easy to speak to him when there was confusion of a topic
I enjoyed working on the written assignment/ essay. I thought it tied everything together and allowed me to apply what I learned.
I liked the very clear format and in class mini quizzes
The fundamentals of supply and demand as well as unemployment and the economy are important topics to learn.
Valentinas was a very good instructor and cares about his students.
Chapter Quiz Good Online Resources
The way quizzes were administered and how the professor taught were very positive. Made the assignments separated enough so that nothing became too stressful in terms of time.

Are there any other aspects of this course you would change in future offerings (e.g. particular readings, assignments, projects, topics studied) and how?

Comments
The last couple. of units were at times difficult to follow
Maybe a few more assignments to help boost your grade?
Perhaps the lectures could be taught a little slower.

What aspects of the instructor's teaching style did you find very positive and why?

Comments
Professor Rudy's always ensured we understood topics before moving forward
His ability to explain material His ability to connect units
He was always great at answering questions and reading the room, so even if no one said they didn't understand he could tell when we didn't and would make sure to go over it until we did
He was never afraid to assist a student if they had questions. He's also a class act.
Power Points Relates work back to real-world use
He was very clear and showed full understanding of the subject he teaches.
He kept the class always positive and made learning fun!

What specific advice would you give to help your instructor improve your learning experience in this course, and why?

Maybe less reading off of the slides and more explaining the topics, particularly the last few chapters were confusing. I think we could have moved at a little slower pace
Maybe checking in with the students to see if they are understanding the material.

He would flip through the slides a little fast, which was hard to keep up with when writing notes but this is a problem that can be easily fixed I am sure

He could go a tad slower in the lectures because we were ahead of schedule for the most part so it never hurts to reinforce some things that may be complicated the first time around.

Some Assignments could've been more difficult
